+

Professional

**Pro Salicylic Acid
Peel 15%**

Potent in-spa acne peel — professional treatment that complements 3-step system

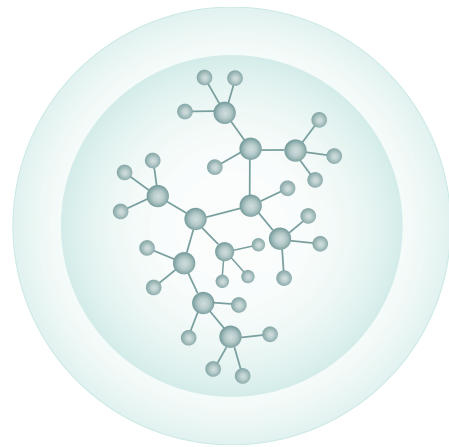

1 Cleanse 2 Treat 3 Hydrate

Time-Release Encapsulated Salicylic Acid

A potent type of beta-hydroxy acid or BHA, **salicylic acid** is one of the most effective ingredients for treating and preventing acne. In addition to sloughing dead skin cells from the surface of the skin, oil-soluble salicylic acid deeply **penetrates** pores to dissolve excess build-up, powerfully **cleaning out blackheads** and **preventing congestion**. With regular use of this ingredient, skin becomes **clear and breakout-free**.

What makes this version of salicylic acid especially effective is its time-release encapsulated delivery system — the encapsulation helps the salicylic acid evenly deposit on the skin. By allowing the salicylic acid to slowly exfoliate the skin over time, **irritation is minimized**, making these powerful products **ideal for all skin types**.

Treats Advanced Acne in 28 Days*

“Day after day, I continue to see improvements and feel so much more confident when I look in the mirror. My breakouts are gone and my scars look lighter! - Vanessa T.

*In vivo clinical study results, based on application of the complete system for 28 days.

Acne Advanced Treatment System

The Acne Advanced Treatment System is a unique collection of at-home and in-spa products that utilize natural and botanical actives to deliver a proven organic solution for those looking to treat and prevent acne. Give your skin the clean slate it deserves and reclaim a clear complexion with this effective system from Éminence Organic Skin Care.

"For the first time in eleven years, I have blemish-free skin. The Clarifying Masque is my secret weapon — before bed, I apply it on any breakouts I have, and in the morning they're 80-90% gone, if not completely. When I was at my most inflamed, none of the products irritated my skin or caused any kind of burning sensation. My friends, coworkers and family have all commented on how "glowing" I look! I am thrilled with my results!" - Christina B.

"Wow! The Acne Advanced products have completely changed my skin. I was lucky that I did not have much acne in my teens, but it appeared with a vengeance in my adult life. Even after trying numerous products and techniques, I still suffered from breakouts, but once I began using the Acne Advanced Treatment System products, I immediately saw a major shift in my skin. Now my complexion is glowing, and I have confidence that I've never felt before — I even find myself going without makeup some days! I cannot imagine my skincare routine without these products." - Nicola P.

A Closer Look: How the Acne Advanced Treatment System Works

3-Step System

Cleanse | Treat | Hydrate

The Acne Advanced Treatment System features at-home products that utilize encapsulated salicylic acid and botanical actives to deliver a **proven organic solution** for those looking to **treat and prevent acne**. Each of the products in the 3-step system work together to combat acne while also addressing skin conditions associated with acne breakouts.

The Acne Advanced Treatment System bundle features full-sized versions of the Cleansing Foam, Clarifying Masque and Clarifying Hydrator. For best results, **use these three steps together consistently** to treat and prevent acne.

Professional Treatment

Pro Salicylic Acid Peel 15%

The Pro Salicylic Acid Peel 15% is a professional-grade spa treatment used to treat and prevent acne and was designed to complement the at-home 3-step system.

This treatment targets congestion within pores, rapidly removing blockages to help improve acne breakouts. Suitable for all skin types, this peel utilizes a combination of natural ingredients specifically chosen to exfoliate, refine and rejuvenate, resulting in visibly-improved skin.
